Community Service for Kids

SERVICE LEARNING FOR KIDS – HAVING FUN WHILE HELPING OTHERS!

About Service Stars

Service Stars offers a variety of service learning programs for kids in grades K-8, led by experienced teachers and education professionals. Our mission is to introduce children to the work of local nonprofits, develop empathy for those in need, and engage children in impactful service projects, all while having fun and working as a team!

Our school-year and summer programs pair fun, hands-on service projects with age-appropriate discussions about community and environmental issues and the importance of giving back. Through our service projects, students support dozens of local charities doing impactful work in your community.

These early experiences of “giving back” help shape who children become as citizens of their community.

We need your help! We believe that service learning should be available to all youth. To make our programs accessible to families of all incomes, we charge a reduced fee. Donations from our community help make our programs affordable for all and broaden our impact by bringing more service projects to our students and our community.

SPONSORSHIP OPPORTUNITIES

Sponsorships support service learning programs including after school, vacation day programs, summer camp and more! Programs offer hands-on community service projects for local charities including food pantries, senior centers, animal shelters, environmental organizations, and more.

SERVICE ULTRASTAR | \$10,000

Benefits:
